AMERICA'S POLICY.

English Journals Comment on United. State's Future.

London, March 5.-Commenting of the inaugural address of President Mc-Rinley, the Dally Chronicle remarks: Time in its progress creates burders for us all. To ignore them is not to annul them. America, definitely though perhaps unconsciously, embarked on an expansionist policy when she declared war on Spain. Today she only recognized, through the mouth of her president, the logical outcome of her own

The Morning Post: "The splendle commercial successes achieved during the last three years are results memor-able at any time, but the more signal because they seem to promise still greater advantage for national industry

greater advantage for national industry in the near future.

"If he succeeds in inducing the Republican party to regard the control of annexed regions like Porto Rico, or protected lands like Cuba as something outside the ordinary conflict of purty he will have iaid a good foundation for the exercise of that influence which naturally belongs to a nation so powerful and so intelligent as the American republic. The sonorous phrases in which this was urged upon them are admirably chosen to attract the popular support."

Goes Home.

The jury for the January term of the district court has completed its work, passed resolutions and distanded.

The resolution commence as follows: We thank the Honorable Z T. Hazen, judge of the court for his uniform kiedliness and courtesy towards us, his never falling patience with our inexperience and shortcomings, as well as late comings' sometimes, and that his treatment of us during our whole attendance upon court, will be remembered by us with pleasure so long as we recall our experiences as jurymen."

The jurymen also thank Stenographer Gaw and Bailiff Coyne for kind treatment. The resolution is signed as follows:

BUCKLIN'S SCHEME.

Says Grain Growers Will Organize to Defeat Grain Trust.

chamber of deputies, on the 18th of January, 1801, presented an exhaustive report of the use of imported malge is the country and recommended an increase of the present duttar on maise in the grain from three to five tranes per quintal or 190 kilos (220 pounds); on the flour or meal, eight francs instead of five. In 1838 the maire imports actually delivered for consumption for France from the United States amounted to 1,512,123 quintals; from Roumania 1,119,179, from Russia 521,682 francs on which 5,776,512 francs were paid as customs dutles. Thus the United States have had here a promising opening for their product, considering both their own overproduction and the possibilities of developing the French market. The milliog and other imports of mains for integral re-exportation of the transformed product add to this prospect, amounting tast year to 28,000 quintals for the United States alone and the year previous to 550,000 quintals for the United States alone and the year previous to 550,000 quintals for total re-exportation. The importation has been so far irregular, but a tendency to increase under favorable circumstances. For many ledustries the French product is unfitted, on account of its quality; and the proposed increase of duties has nothing to do with protecting this native product. The interests represented before the parliament customs committee were in favor of the importation of foreign maize distillers of grain alcohol, distillers manufacturers, brewers, transportation com-The record of this legislature has been that not an fota of legislation has been enacted for the benefit of the wheat growers of the state. The nearest approach to anything that will effect them beneficially is the railroad law, and they are not satisfied that this will afford them any relief from the grain trust.

Several attempts at legislation were made by Representative J. A. Bucklin, of Thomas county, but every one was turned down. Bucklin, by the way, did not succeed in having passed a single one of the half-dozen bills he introduced.

Two of them were erain bills one act. Two of them were grain bills—one anti-trust and the other for the creation of a state grain commissioner. Representative Bucklin says the wheat

LANDLORD WILL KNOW. Proposed Law to Inform Proprietor of

New York, March 5.—Wen H. Baidwin, ir., chairman of the committee of fifteen, has announced that war will be waged on the social wills along lines which will rid supposedly respectable tenements and flat houses of victous persons and force them to take refuge in house; about whose character there is no doubt.

The committee, said Mr. Baidwin, will trage the legislature to crucia has in accordance with the findings of the tenement house commission.

"All that it is necessary to prove under the proposed law is the presence of baid women in the house. The women will be sent to fall for a long term, and the house itself will be libeled, just as we like it will. Vicious Tenants.

HAS THE WAR ENDED.

London Has Close of Transvaal Campaign All Figured Out.

New York, March 5 .- Boer war news continues favorable, says the Tribune's London correspondent, and the spirits Not only is General French clearing the eastern district of the Transvoal, but General De Wet has been headed off in one direction and is being closely fellowed toward Fauersmith, so his capture can be effected. The surrender of Generals Botha and Delarey will follow speedilly. This, at least, is the opinion of London military men who are now more confident in their forecasts than they have been during the recent months. It is rumored in parliament that Sir Michael Ricks-Beach has two budgets in preparation—one adapted for the close of hostilities, and the other for an indefinite continuance of the present condition of guertila warfare. One is becondition of guerilla warfare. One is be-lieved to be much more favorable than the other to the taxpayers, but each is reported to involve considerable widen-ing of the area of indirect taxation
